

UI/UX PORTFOLIO

Designing clearer checkout experiences.

I turn complex flows into calm, usable journeys for people shopping online.

[View case study](#)[Explore design guidelines](#)

Short introduction

I'm a UI/UX design learner focused on creating accessible, thoughtful, and user-friendly digital experiences. My work explores checkout flow design, design systems, and human-centered interaction patterns.

About me

I'm learning how layout, accessibility, and visual hierarchy shape trust and conversion. I enjoy turning complex user

Featured project

My current capstone focuses on improving the checkout flow experience through clarity, mobile usability, and stronger decision-making support.

journeys into clearer, calmer experiences.
