

# Design guidelines

This page summarizes the visual direction behind the portfolio, including typography, color, spacing, and interaction patterns.

## Design Principles

- Simplicity
- Accessibility
- Consistency
- Usability

## Process

- Research
- User Flow
- Wireframes
- Design System
- High-Fidelity UI
- Prototype
- Testing
- Iterations

## UX Standards

- WCAG AA
- Mobile First
- Responsive Design
- Semantic HTML
- Performance

## Best Practices

- Color Contrast
- Typography
- Spacing
- Component Reuse
- Visual Hierarchy

## Typography

- Use clear, readable sans-serif type for body content
- Keep headings prominent and concise
- Maintain strong contrast for accessibility

## Color

- Favor calm, modern neutrals with a strong accent color
- Use color intentionally to guide attention and create hierarchy

## Spacing

- Keep spacing consistent across sections and cards
- Use generous padding on mobile to improve readability

## Interaction

- Make buttons and links obvious and easy to tap
- Support keyboard navigation and clear focus states
